JOHNSON'S POND

OLD FLAT RIVER ROAD

CONCEPTUAL DESIGN FOR PUBLIC ACCESS - FRANCIS SHERMAN PARK

TOWN OF COVENTRY, RI

March 17, 2026

Prepared by: GZA GeoEnvironmental, Inc.
Project Number 41.0163424.00

Disclaimer:
Feasibility to develop public access for boat launch and the associated infrastructure requires further assessment for proper terrain, geotechnical, environmental and water impact considerations.

The following graphic is provided as a conceptual design only and not for construction; subject to public review, critical feasibility assessment and on-site assessments. Additional advancement of design must be properly surveyed, planned and permitted according to all local, state and federal regulatory requirements.

Proposed Picnic Overlook

Focused Invasive Species Removal Replaced by Native Plantings

Approximate Property Boundary

Proposed Dock for Hand-Launching Small Vessels

Proposed Boardwalk / Elevated Trail Approaching Shoreline to Minimize Environmental Impact and Maintenance

Proposed Improved Trail Linkages to Shoreline

Proposed Accessible Trail

Proposed Display Case / Park Information Board

Proposed Parking Lot Expansion with Accessible Vehicle Spaces
